

Summary: One WorkQueue is a business and customer integrated solution that connects customers with businesses for service in need. One WorkQueue has over 200 categories to select from for service. One WorkQueue solution maintains all its communications via alert and within the application, there is no need to chase emails looking for updates on service requests like our competitors. One WorkQueue is built with state-of-the-art technology and creates a streamline workflow for all your service needs. If you don't have a login, click on **Not Registered? Register here**, then select what type of membership you would like to register for. There is a small fee as a business and your membership is good for one year, there is no fee as a customer. Also, there are no transaction fees for any service request currently.

The image shows two screenshots of the One WorkQueue app interface. The left screenshot is the 'Login' screen, featuring the One WorkQueue logo, input fields for 'Email' and 'Password', a 'Forgot Password?' link, a green 'Login' button, and a 'Login With Face ID' button. Below these is a link that says 'Not registered? Register here'. The right screenshot is the 'Registration' screen, showing a back arrow, the title 'Registration', and two options: 'Business' (with a gear and bar chart icon) and 'Customer' (with a group of people icon).

For quick and easy access, this technology is built with facial recognition.

Business:

When registering as a business, One WorkQueue solution allows the business to register and provide all relevant information necessary. On the business membership, you are allowed to select three categories of services that you offer and up to five cities.

When jobs are posted from any customers with these categories and within the five cities, you will receive an on-demand notification to your mobile device.

The image shows the 'As Business' registration form. It has a green header with a back arrow and the text 'As Business'. Below the header is a camera icon for profile picture. The form is divided into two main sections: 'Personal Information' on the left and 'Business Details' on the right. The 'Personal Information' section includes fields for Name*, E-mail*, Phone Number*, Password*, and Reference Code. The 'Business Details' section includes fields for Business Name*, Business ID Number, Business Phone Number*, Business Email, Category* (dropdown), Address*, Country* (dropdown), State* (dropdown), City* (dropdown), and Zip Code*. To the right of these fields are two questions: 'Do you have a license to perform your service?' and 'Do you have insurance for your business?', each with 'Yes' and 'No' buttons. Below these is an 'Add Logo' section with a camera icon and an 'Upload Documents' button with a plus icon. At the bottom, there is a disclaimer: 'By clicking "Sign Up," you agree to the app's terms and conditions' and a green 'Sign Up' button.

Customer:

When registering as a customer, you will simply fill out the form below, then click [Sign Up](#)
